EMERGENCY PROTOCOL

Version 1.1 · Applies to all students under our guardianship

1. Contact Arrangements

There are three distinct situations, and each has its own arrangement.

(a) School or host family contacting us to raise an emergency — 24 hours a day, every day

- **Emergency line: 07828875261 Yating Yang (Sabrina)**
- This line is answered at any hour, on any day of the year, by the Guardian or, when the Guardian is unavailable, by the back-up guardian （Angela Wang — 07789789759）
- The School and host families do not need to consider the hour before calling

(b) Us notifying parents of an emergency involving their child — at any hour

- Whenever a medical, safety or other emergency arises that parents need to know about, we contact them within one hour, by WeChat voice call followed by a written summary in Chinese
- This obligation is not limited by the parent contact hours at (c)

(c) Parents contacting us for routine matters — 08:00 to 20:00 UK time

In China Standard Time this is approximately 15:00 to 03:00 the following day during British Summer Time (late March to late October), and approximately 16:00 to 04:00 the following day during Greenwich Mean Time (late October to late March).

- **WeChat: yatingyang002 — preferred channel； jiaoyuyiyang；**
- **Email:** sabrina.yang@hotmail.co.uk； sabrina@yiyangeducation.co.uk
- Non-urgent messages sent outside these hours are answered as soon as possible after 08:00 UK time the following day
- These hours apply to routine matters only. If parents believe their child is at risk, they should call the emergency line at (a), at any hour. Where there is a risk to life, parents should also contact the School directly or dial 999

Response commitments

Situation	Our commitment
Emergency call from the School or a host family	Answered immediately, at any hour. Missed calls returned within 15 minutes
Emergency call from parents	Answered immediately, at any hour. Missed calls returned within 15 minutes
Notifying parents after an emergency involving their child	Within one hour, at any hour
Attendance in person, Surrey and surrounding area	Within 60 to 90 minutes
Written incident report to parents	Within 24 hours
Non-urgent matters	Same working day

Cover arrangements

A back-up guardian holds the emergency telephone and the students' emergency cards whenever the Guardian is unavailable (travelling, unwell, or otherwise unable to answer for more than two hours, and overnight where stated above). Parents, schools and host families are notified in advance of any planned handover.

Deputy name	Angela Wang
Telephone	07789789759
Enhanced DBS	Certificate number 001901773551, issued 4 November 2024 with Update Service
Safeguarding training	DSL completed on 30 Sep 2026

The deputy may contact emergency services, children's social care or the school directly and does not need the Guardian's agreement first.

2. Classification of Emergencies

Not every emergency requires action through the night. Incidents are classified at two levels, with response arrangements to match. This classification governs how quickly a matter can be resolved. It does not change our commitment to answer the emergency line at any hour, or to notify parents within one hour.

Level A — Medical and personal safety (immediate response, day or night)

- Serious illness or injury, or a student requiring hospital treatment
- A student missing or of unknown whereabouts, or uncontactable in circumstances that cause concern
- Immediate risk to the safety of the student or of another person
- A safeguarding concern or disclosure
- A serious family emergency at home requiring urgent contact with the child
- Disrupted travel leaving a child stranded or unaccompanied

Level B — Administrative and disciplinary (resolved in school hours)

- Suspension, exclusion, or a requirement that the student leave the school premises
- Routine incidents at a host family that are not medical or safety emergencies
- Documents requiring the Guardian's signature, parents' evenings, subject choices and similar matters

Where a Level B matter arises overnight or at a weekend, we establish the facts, make sure the student is safe and reassured, and contact the School as a priority at the start of the next working period. Notification to parents still follows the one-hour standard, though resolution usually has to wait until the School is open.

3. Medical Emergencies

1. Where there is a risk to life, whoever is present dials 999 first and notifies us immediately afterwards.
2. The Guardian or deputy travels to the scene, arriving within 60 to 90 minutes across Surrey and the surrounding area.

3. We produce the medical consent form signed by the parents, which authorises doctors to provide necessary emergency treatment where the parents cannot be reached in time, so that treatment is not delayed.
4. We telephone the parents within one hour, communicating in Chinese and interpreting medical information for them.
5. We act as the hospital contact and remain with the student until discharge or until the parents arrive in the UK. Where parents need to travel urgently, we assist with visa documentation.
6. A written incident report is provided to the parents within 24 hours.

Routine healthcare: GP, dental and optical appointments are arranged and attended in accordance with the service tier, with parents informed before and after each appointment.

4. Problems Arising at School

This section covers Level B matters. Where a medical, safeguarding or personal safety issue is involved, sections 3 and 5 and the Safeguarding and Child Protection Policy apply immediately.

7. We respond to a call from the School within 15 minutes and establish the position with the housemaster or housemistress.
8. Within working hours, we attend the School directly, whether for a disciplinary meeting, to accompany the student for medical attention, or to collect the student.
9. Overnight or at weekends, we establish the facts and reassure the student by telephone or WeChat, then attend or contact the relevant department as a priority at the start of the next working period.
10. A written account in Chinese is sent to the parents within one hour. Where a decision rests with the parents, we seek their instructions first.
11. Where the student must leave the school premises, we collect them within four hours and accommodate them at the Guardian's home or with a vetted host family until the matter is resolved.
12. We confirm the agreed way forward in writing with both the School and the parents.

Where we identify any matter affecting a child's safety, we report it immediately to the School's designated safeguarding lead and, where the threshold is met, to Surrey Children's Single Point of Access, in accordance with our Safeguarding and Child Protection Policy. Protecting the child comes before any other consideration, including the interests of this business.

5. A Student Missing or Uncontactable

13. Immediately establish the last known location through the School, the host family, classmates and mobile phone location.
14. If the student is not found within one hour, dial 999 and report the student missing. Where the student is under 13, or where there is any indication of risk, call immediately without waiting.
15. Notify the School and the parents at the same time.
16. Act as the UK point of contact throughout, cooperating with the police and keeping a written chronology.
17. Once the student is found, talk with them, provide support, and give the parents a written report within 24 hours.

SCAMS TARGETING INTERNATIONAL STUDENTS

Where a student has been instructed by anyone to break contact, to conceal their location, or to tell their family they have been taken, this is treated as a safeguarding emergency and reported to the police immediately. Scams of this kind have specifically targeted Chinese students in the UK. A student who suddenly becomes uncontactable is never assumed to be simply out of touch.

6. Embassy and Insurance

Embassy of the People's Republic of China

- Consular protection and assistance: +44 (0)2073551279 verify against the Embassy website before issue
- MFA global consular hotline: +86 10 12308
- Address: 49–51 Portland Place, London W1B 1JL
- Lost passport: we book the appointment and accompany the student to the Embassy

Insurance

- Each student's medical insurance details are recorded on their emergency card. On hospital admission we contact the insurer's 24-hour assistance line
- The Guardian holds professional indemnity and public liability insurance: FUL11018TOPS Accredited Insurance (Europe) Limited

7. An Emergency Card for Every Student

On signing, we produce an individual emergency card for each student, showing the 24-hour emergency number, the deputy contact, the parents' details, allergy and medication information, insurance details and the Embassy number. Copies go to the boarding house staff, the host family, the student as a photograph on their phone, and the parents. In a genuine emergency, one card is worth more than a folder of documents.

A full chronological record is kept of every emergency and a written report provided to parents within 24 hours. This protocol is reviewed each August before the start of the school year, and immediately after any incident. It should be read alongside our Safeguarding and Child Protection Policy.
